**RE: East Brandywine Township Community Map Guide**

Dear Friends:

We are excited to launch a new public outreach initiative in partnership with local company DOES Co. This initiative combines a cutting-edge interactive community guide that will be printed and distributed throughout East Brandywine. In addition to the print directory and map, this program offers digital advertising opportunities available to you through a corresponding mobile app. With support from local partners like you, we will be able to connect with residents in a unique and valuable way.

By supporting this new initiative, your organization will be associated with East Brandywine Township programs and services that many of our residents rely upon and enjoy – from trash and recycling, police and fire services, active and passive recreation, and even a map of our streets, parks, and polling locations.

We encourage you to consider joining us in this outreach. Nick Winkler from DOES Co. is our project lead, and main point of contact for this campaign, and will be following up with you talk to you more about this project. He can also be reached at (484) 364-3001 or by email at [nick@does.co](mailto:nick@does.co). If you have any other questions, please contact Scott Piersol, East Brandywine Township Manager, at (610) 269-8230 x 203 or by email at [scottpiersol@ebrandywine.org](mailto:scottpiersol@ebrandywine.org).

Sincerely,

Scott T. Piersol, Township Manager
